TNBA TEAM GOALS

Our goals are simple – we want to teach the game of basketball to the players in a fun and competitive atmosphere. We will NOT just roll the ball out and let the kids play. We will teach offensive and defensive concepts; we will teach skills that the players can take with them as they grow and learn the game. We stress being coachable, being a great teammate and competing because these are traits that will translate to success off the floor as well.

TNBA COACHES

Our coaches are hand-picked by TNBA. We put our coaches through our own TNBA coaching clinics. Our directors work with each coach through the season to support them. In addition, our coaches will also be certified by USA Basketball. USA Basketball is the national governing body for the sport in the United States.
